## PUT THE POWER OF SOLUS™ TO WORK FOR YOU

SOLUS™ provides you with a versatile scan tool that will increase your productivity. See how quickly SOLUS™ delivers the information you need to diagnose and repair today's complex vehicles. SOLUS™ and Snap-on will give you the diagnostic power you need to get the job done. Ask your Snap-on franchisee for a SOLUS™ demonstration today.

**SOLUS™**  
International

**THE LATEST GENERATION  
IN HANDHELD DIAGNOSTICS**

## SOLUS™ TAKING SCANNER™ TECHNOLOGY TO A HIGHER LEVEL

### INTRODUCING SOLUS™ FROM SNAP-ON

Suppose there was a diagnostic tool that gave you more crucial data, faster. Then showed you more of that data at one glance, so you could make accurate diagnostic decisions.

Suppose this tool came with the worlds most advanced automotive diagnostics technology, with compact flash memory that dispensed with the need for cartridges.

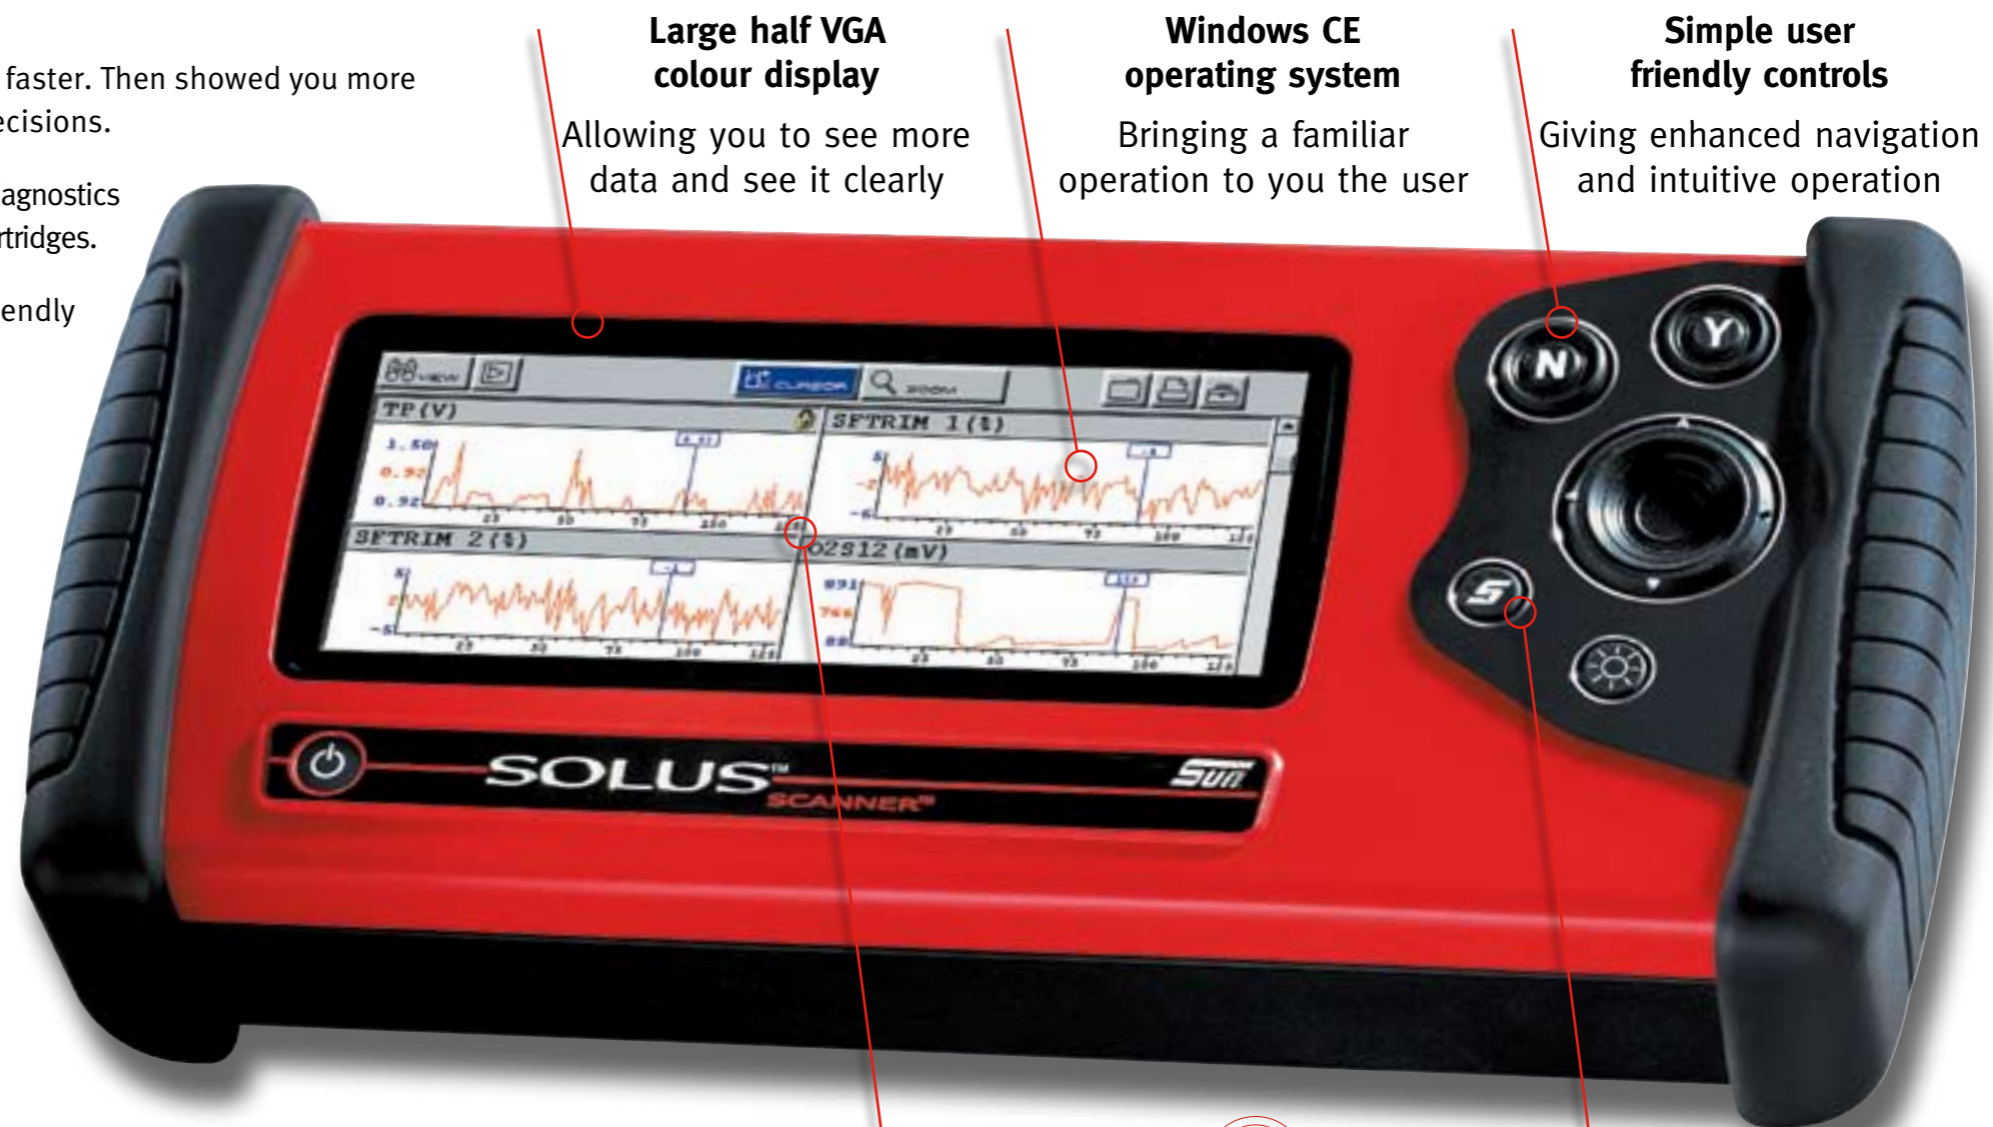

Suppose that this new tool was somehow familiar with user friendly controls and navigation, yet had a large clear colour VGA display.

### ONCE YOU SEE SOLUS™, YOU'LL SEE THE BIGGER PICTURE.

SOLUS™ key features keeping pace with the technology of today, keeping the technician ahead in the diagnostics race to repair vehicles faster.

- Controller Area Network (CAN) vehicle communications capabilities
- 512 frames of data at a glance
- View critical data in 1,2 or 4 graph mode
- Pause and view data, even for parameters not on the screen at the time
- Activate cursors and zero in on that glitch fault accurately

### FAST PERFORMANCE, MORE DATA, AND LARGE DISPLAY; ASK YOUR SNAP-ON FRANCHISEE ABOUT SOLUS™, AND GET THE BIGGER PICTURE.

**Large half VGA colour display**

Allowing you to see more data and see it clearly

**Windows CE operating system**

Bringing a familiar operation to you the user

**Simple user friendly controls**

Giving enhanced navigation and intuitive operation

**Fast colour graphing data**

Crucial data faster with pin point accuracy

**Infra red printer capability**

Making printing more convenient and time saving

**Programmable S function key**

Save, freeze and print screen data, graphs, PID lists
